

A

One line of the model's own written reasoning; this text never changes:

After step 5 the value is 457.

Hidden state stored at the token '457':

457

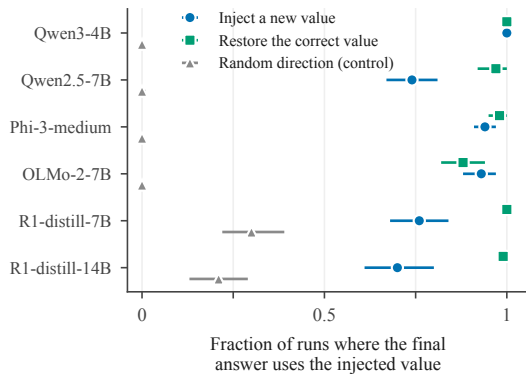

462

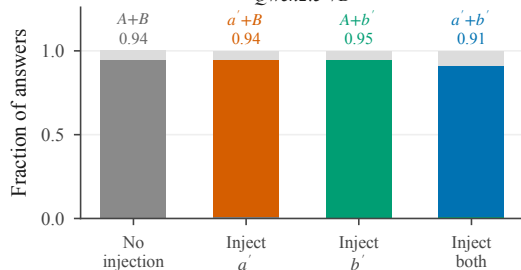

462 was never written anywhere

The model keeps generating and its final answer builds on 462, not 457:

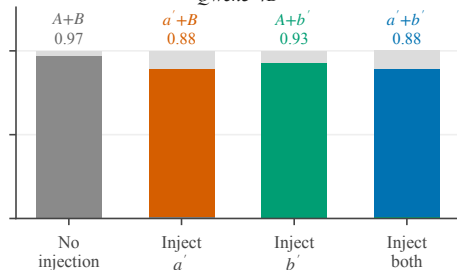

final answer = chain continued from 462

B**C**

Qwen2.5-7B

**D**

Qwen3-4B

Final answer equals

Correct sum $A+B$ $a'+B$ $A+b'$ $a'+b'$ Other
