

1 Edit the visible text (452 to 457)

3 Block attention from later positions to the value token

prompt:  
start 481,  
10 ops

After step 4  
the value is 390.

After step 5  
the value is 457.

model continues  
steps 6..10

#### answer

Readout: does the answer  
follow the planted value?

hidden state at '457'  
gets a value  
never written

2 Overwrite the state,  
text unchanged
