

A

The visible reasoning prefix; every character stays exactly in place:

After step 5 the value is 457.

Activation at the 457 position:

457

462

patched from a run that wrote 462;

462 appears in no text

The model keeps generating and its final answer builds on 462, not 457:

final answer = chain continued from 462
