

1 edit the visible text (452 to 457)

3 block attention from later positions to the value token

X

prompt:
start 481,
10 ops

After step 4
the value is 390.

After step 5
the value is 457.

model continues
steps 6..10

answer

readout: does the answer
follow the planted value?

hidden state at '457'
gets a value
never written

2 overwrite the state,
text unchanged
